Manager Feedback

Kyle is extremely customer centric. She has taken multiple opportunities to create interesting new campaign creative on email for example an email specifically for Women's Day and sports content during the Super Bowl. Manager Feedback

Kyle gets along well with her co-workers and fosters a pleasant and professional working relationship with those around her. She has built a strong relationship with the other members of the email team and is a catalyst to getting work done on tight schedules.

In 2023, I would like to see her expand outside the email team to drive the same synergies she has within the email team across functions.

Manager Feedback

Kyle has gone above and beyond in her ownership and leadership in the email channel. She has made the strategy building process her own and delivers an increasingly strong product on a weekly basis; with growing comfort speaking to senior leadership about her planning and thought process.

It is my belief that this is only the beginning. In 2023 I would like to see her continue to grow the sophistication of the email channel, become more precise in her analyses and take on more strategic role in personalization

Manager Feedback

Kyle has a very strong and metered approach appreciated by the whole team. When handling Hanna Sale pivots, she worked through complex issues on tight deadlines to deliver an acceleration of the marketing message to our customers and drove significant demand for the company.

In 2023, I would like to see her work to tighten up her analysis muscles and become an expert in the available data at Hanna. There is an opportunity to leverage deeper customer insights and data that Kyle is uniquely positioned, both in her role and in her acumen to expand Hanna's capacities.

Overall Manager Feedback

3 - Meets Expectations

Kyle has gotten up to speed extremely quickly and has become a pivotal player on the email team. She now leads the weekly strategy planning.

Her detail orientation and strong work is responsible for elevating the email creation from a disorganized, largely ad hoc operation to a regimented, consistent and transparent process. I consistently receive senior feedback about the strength and visibility going into the thinking on email, which has been driven by Kyle.

As she establishes herself more in her role, I have no doubt she will continue to be a top performer and grow into
