Kyle Amundson

Senior Manager, CRM @ Hanna Andersson
San Diego, California, United States

Summary

Experienced marketing communications professional with a passion for email marketing, loyalty programs, and CRM. Demonstrated history of developing and executing targeted cross-channel marketing communication strategies (inclusive of Email, Push, In-App messaging, and SMS), acquiring new guests to the loyalty program, and executing customer lifecycle strategies to increase brand engagement. Exceptional cross-functional collaboration and relationship management. A unique blend of highly analytical and data-driven while being extroverted and excited to collaborate with others.

Qdoba Restaurant Corporation

2 years 9 months

CRM Campaign Analyst

December 2018 - April 2020 (1 year 5 months)

San Diego, California

Strategically planned and managed cross-channel marketing campaigns (Email, Push, In-App, and SMS) to loyalty members. Owned digital communications calendar and content for all activities.

Executed loyalty program strategy and promotions to drive customer acquisition, retention, and promote increased frequency among existing guests.

Successfully implemented two marketing technology platforms: a new CRM & loyalty platform for rewards program management and an ESP (Email Service Provider).

Spearheaded the creation of a local email marketing program for franchise operators

Oversaw customer data and collaborated with IT to implement data governance practices that ensure the accuracy, quality, and completeness of customer data.

Managed the creation and execution of personalized, one time, and automated e-mail marketing campaigns developing communication strategies that increase engagement and ROI.

Recommended customer segmentation strategies based on program objectives using deep knowledge of system and loyalty member data.

Produced clear and concise reports developing statistical approaches to measure the impact of cross-channel marketing programs and loyalty promotions on key performance indicators.

Identified and evaluated trending “best in class” loyalty programs to maintain best practices, driving innovation in program strategy

Digital Campaign Coordinator
August 2017 - December 2018 (1 year 5 months)
Greater San Diego Area

Executed customer data segmentation requests to support customer relationship marketing initiatives.

Strategically planned and executed system and corporate email, push, and In-App messaging sends to support marketing campaigns.

Implemented reports on digital communication performance for specific campaigns as well as holistic channel reports to develop statistical approaches to measure the impact of email and push notification marketing programs on key performance indicators.

Partnered cross-functionally to identify user experience areas of opportunity based on conversion funnel.

Managed Google Analytics and Flurry analysis tools to drive insights into website and app performance as well as customer behavior.

Provided ad hoc reporting from the BI tool to support in the moment data queries that informed and guided decision-making.

University of California San Diego

Marketing Project Coordinator

April 2017 - July 2017 (4 months)

La Jolla, CA

Initiated and planned marketing projects for UC San Diego departments.

Lead project kick-off meetings, defined project goals, and built projects in WorkZone

Monitored and controlled the progress of projects through weekly production meetings for the marketing team.

Worked directly with and managed the workflow of copywriters, graphic designers, web programmers, data analysts, and student interns for each.

Tracked inventory of promotional items, gifts, and giveaways at multiple storage locations, forecasted inventory needs, and managed all orders and relationships with both domestic and international vendors and suppliers.

Underground Elephant

Quality Assurance

June 2016 - September 2016 (4 months)

Responsible for the verification of Internet lead returns and upselling for B2C sales

Collaborated closely with both the customer service and sales departments to ensure quality control for all incoming leads

Utilized Salesforce extensively to manage all lead returns

Assisted with training of external QA team members from international call center on call procedures and building up customer rapport

Liquid Grids

8 months

Social Media Coordinator & Analyst

September 2015 - January 2016 (5 months)

Provided in-depth performance analysis and streamlined content handling procedures for the proprietary Liquid Grids technology platform

Assisted with maintenance and management of several active Facebook community pages for rare diseases by creating and scheduling unbranded content

Created monthly social content calendars based on highly contextual insights that translated into relevant and relatable online posts for both Facebook and Twitter

Measured effectiveness by translating analytics and trends into usable insights for clients

Cultivated and nurtured leads for multiple lead generation campaigns
Identified influencers and participated in online conversations on behalf of the client

Marketing and Client Services Intern

June 2015 - September 2015 (4 months)

Utilized technology to conduct research in order to uncover highly contextual insights that were then translated into relevant content for online disease-specific communities.

Worked closely with Chief Technology Officer to isolate relevant data for the Liquid Grids technology platform.

Defined social media parameters for the Liquid Grids technology platform.

Directed and troubleshooted the ingestion and digestion of indexed information for the proprietary digital platform.
